fasin

Find the arc-sine of a value

Description

```
Float:fasin( Float:value )
```

Find the arc-sine of the given value.

The return value is in radians.

Parameters

`value`	input value

Return value

Returns the arc-sine in radians of `value`.

Example usage

```
new Float:x;

x = fasin( 1 );    // 1.570796..
```
